SEMI-WEEKLY INTERIOR JOURNAL.

VOL. XIX. STANFORD, KY., TUESDAY. JANUARY 26. 1892. NO. 94

BARBOURVILLE, KNOX COUNTY.

—John T. Hays, a prominent young attorney of this place, will leave Wednesday for Indianapolis, Ind., on legal business, to be gone some two weeks.

—Considerable sickness is reported at Williamsburg and Saturday morning the death of Mr. G. D. Moore, a prominent lawyer of that place, was reported. Grip seems to be the principal complaint.

—Messrs. W. D. Tanner and G. W. Wilburn, of London, were in town Wednesday and Thursday on business. These gentlemen tell me they propose starting a jewelry store and repair shop in Manchester and have already taken steps in that line.

—The societies of Union College executed quite a nice programme Friday night, which was complete and well rendered. Some of the principal features was a paper, "The Student's Friend," edited and read by Miss Mollie Burnside, daughter of Dr. W. Burnside, of this place, and a recitation by Miss Maud Tinsley. The music was good and the instructor in this department, Miss Ella Tinsley, deserves much credit. She is possessed of much talent in this line and has quite a good class.

—Hon. S. B. Dishman, ex-mayor of Barbourville, has been mentioned as a delegate to the national convention at Chicago June 21. Mr. Dishman is quite popular in Eastern Kentucky and will in all probability receive the endorsement of his party in this district. He was mentioned last spring by the democracy of this section as a candidate for attorney general and had a good following enlisted, but he declined to run. He was a candidate for delegate to the constitutional convention in 1890 and carried Knox county by a majority of 645 when she usually gives a republican majority of 600 to 800.

LONDON, LAUREL COUNTY.

—Sunday was a lovely day.

—William D. Tanner, lately with our jeweler, Jno. B. Oakley, will shortly establish himself in the same line of business at Manchester.

—Steve Jackson is grading the ground on which the new Baptist church was to have been built and will erect a handsome residence thereon.

—Revenue Agent C. M. Randall and posse returned Saturday night from a raid in Harlan county, where they succeeded in cutting up one illicit distillery.

—The Cicero Debating Society was organized at the court house last week and will meet every Thursday night. Every one, young and old, male and female, can take part if they so desire.

—Eld. John Bell Gibson preached at the Christian church Sunday morning and night to an appreciative audience. Elder Ramey, of the Northern Methodist church, assisted by others, also had a good attendance.

—Marriage license were issued last week to H. C. Conken, aged 18, and Elizabeth Bowman, 15; W. R. Jones and Telitha George, T. M. Whitaker and Maria Barnett, daughter of County Judge M. M. Barnett.

—Clark & Sent, the stavemen, have at least 20 car-loads of dressed staves on their yard near the depot. They will not make any shipments until all are thoroughly dried and seasoned, which will probably be late in the summer.

KELLEY.—Ralph Morrison, little son of J. F. and Maggie C. Kelley, was born March 9th, 1889 and died after a few days illness with laryngitis, Jan. 12th, 1892. A bright, sweet child has been taken away. For a brief while he was the light of the home, the joy of father and mother, the pet and favorite of all. But the light is gone out, the joy is turned to sorrow and pain and anguish fill the hearts of the stricken ones. The writer deeply sympathizes with the bereaved family. To bury our loved ones out of our sight is one of the sorest trials that can rack the human heart. Only faith in God, hope of meeting again and the gentle ministrations of the Holy Spirit, can bring comfort in this dark hour. Let us not in all this "sin against God or charge God foolishly." The Judge of all the earth will do right. He will support us in our trial, comfort us in our affliction and in our greatest sorrow.

"He will be with us, our troubles to bless
And sanctify to us our deepest distress."

As for little Ralph he is safe. No sin more shall reach him in that haven to which he has been borne. No earth stain shall ever soil the beautiful garments in which Christ has robed him. Jesus has called him unto himself that he might bless him. Though our arms are empty and our hearts heavy, let us not wish to call him back again. In the "home of the soul" we shall meet bye and bye. A.

The purchase of Alaska has already proved to be a pretty good speculation, goods being exported from that country last year to the value of over $1,000,000 in excess of the price paid to Russia for the territory.

HUSTONVILLE.

—Miss Belle Riffe has returned home after a profitable term in the musical department of Lancaster College.

—One of our venders of first-class beverages filled an order from Kansas this week with a jugful of his hair-curling 11-year-old brand.

—John Greening found the fresh meat business unsuited to his tastes and adaptibilities and persuaded Will Reid to resume business at the old stand.

—George Drye, of Kansas, gave his friends and relatives here a pleasant surprise by an unannounced visit last week. Misses Alice and Dollie Cabbell spent a few weeks at Lebanon.

—Miss Lizzie Bogle returned to Danville to resume her school duties. Mrs. E. C. Walton is improving. Mr. George Riffe and wife went to Lebanon. Miss Mattie Dinwiddie returned from Texas yesterday.

—Dave Allen is nursing a pair of sore lungs. Emmett McCormack is profiting by example, observation and experience which constrain him to keep off icy roads and near good fires, consequently there is nothing going on in stock trading circles.

—George Ryan, of Somerset, is spending a few days with friends here after a long absence. George is one of Hustonville's adopted boys of whom she is justly proud and the brass band would always be out to welcome him if he didn't so modestly slip in unannounced.

—Wallace Greening's sagacity in having the Western Union connect Hustonville with a loop is verified by the land-office business done here. Waller's commission promise to place him among the financial nobles of this town and his mercantile business has already become secondary.

—"That a prophet is not without honor except at home" is again flung at us with a knock-down force in the fact that our many wide-awake, most prolific and conspicuously original engineers of first-class home papers had never discovered in Henry Watterson some of the best democratic presidential timber in the United States, but had to receive a pointer from an eastern exchange.

—We thought that the K. K. membership was restricted to this side of the Ohio River, which separates the anointed from the wicked, but it transpires that the elect of Ohio have unlawfully banded themselves together and strung up a poor nigger for only killing one woman and choking another almost to death. What will Mr. J. F. Watson, of Dehra Dun, India, think of us after reading that?

—The rapidity with which railroad horrors are treading on each other's heels, in this, the greatest country on the globe, when the average speed of the fastest trains is a little less than 100 miles an hour, clamors for an early introduction of those 200 miles an hour locomotives, which will insure a more rapid and painless translation of the whole batch of passengers to Kingdom Come and abolish wrecking trains and repair shops.

—Boyle is to be congratulated in the appointment of Mr. McDowell to the Commissionership of Agriculture and Gov. Brown on his wise discrimination in the selection of our neighbor, who will bring the office the experience of a highly refined and cultivated christian gentleman, whose success as a farmer has enabled him in his vigorous middle age to turn the farm over to the boys and enjoy that otium cum dignitate which an irreproachable career so eminently merits.

—The past several months' accumulation of invalid foot-gear pleads for the reopening of a hospital here, under management of a doctor skilled in administration of waxed ends and pegs. There is enough cobbling crying for immediate attention to keep a brisk workman's time between drinks fully occupied the remainder of the year and never an excuse for knocking off on National holidays except from overwork. By promptly acting on the above some adventurer will soon find himself wondering how it is he had not sooner heard of Hustonville and will cheerfully pay the printer for this ad. which put him on to the best thing of his life.

—Professor Tassarini has boomed good smoking tobacco by publication of his discovery, by experiment, that tobacco smoke is a valuable germicide, being absolutely destructive of the cholera and typhus fever bacilli and materially retards the growth of other varieties. Another professor professes to have perfected Koch's lymph and since his elimination of the defects has an article which is warranted to cure consumption. We are assured that it is not necessary to go further than Louisville to find as satisfactory cure of the liquor appetite as Dr. Keeley advertises and when some philanthropist forges to the front with a specific for the gum chewing wrecks little incentive to experimental research will remain to the medical profession. This is an age of discoveries if the fellows whom Sherman bought haven't been treed.

—Tone Hunn sold a Boyle county trader a handsome young combined stallion for a good price and has added a herd of Texas ponies to his stock of flyers. The Texans when out for an airing attract much attention, but the most interested admirers keep one eye out for possible emergencies as they are rather erratic of motion, often betraying an obstinate preference for a zigzag route, reckless of obstacles, animate or inanimate.

—We are sorry that we can't report Uncle George Weatherford materially improved. Mrs. Leah Woodson, one of the oldest citizens of Frye's Creek, is lying in a critical condition and her recovery is very improbable, pneumonia having followed her attack of grip. She has been a woman of wonderful industry and vitality, for many years past rarely escaping an annual attack of bronchitis or pneumonia, and is 81 years old. John Alstott, a handsome young gentleman from the Big Fork, passed through Hustonville Saturday on a business trip to Cincinnati and Covington.

—The Grand Buckeye Political Hippodrome has its tents spread at Columbus and is giving entertainments daily, which are unequaled by those of any other combination on earth. Patrons are guaranteed an enjoyable sitting or money refunded. Ohio is a State somewhat larger than Rhode Island and famed for enterprise, wool, tin plate and tariffs. The suffrage of that State appears to be largely of the commercial variety and we want to know why it isn't properly catalogued in the McKinley bill with a high rate—for future campaign purposes—affixed. With such high morality organs as the Enquirer and Commercial Gazette, better was expected of Ohio.

MIDDLEBURG, CASEY COUNTY.

—Col. H. H. McAninch is reported better. John McDaniel, a merchant at Yosemite, has disappeared. Mrs. Captain Biggs is dangerously ill at her home at Deadwood, this county, and is expected to live but a few days at best. She is an aunt of Col. Eugene Zimmerman, of Cincinnati.

—A flour famine does not often occur here, but such was the case last week. Owing to the icy condition of the road, Mr. C. C. VanArsdale, the Hustonville miller, who furnishes this part of the western continent with an excellent article of flour, couldn't send his wagon on its semi-weekly trip to this place, hence some of those unused to corn cake had to "cut'er" whether they liked it or not.

—An enthusiastic member of the Middleburg Cornet Band, who has been assigned one of the small drums, was seen a few days ago, all alone, in a secluded place, practicing upon his knee with a couple of sticks. Another report is that he has battered down one of the doors of his house drumming upon it with his fists. We must admit that this sounds a little like Mack, but we don't vouch for the truthfulness of these statements but give them as reported to us.

—There was a kind of temperance meeting at the Baptist church, the 17th, in which speeches were made by Profs. Hull, Allen and Brown, Rev. J. N. Bowling, Dr. Taylor and others. Several persons who attended were sufficiently impressed to sign a pledge themselves to taste not, handle not in the future and a few of the more enthusiastic, it is said, will hereafter refuse to support any candidate for office who is not a true blue prohibitionist.

Liberty, Casey County.

—We have had some very severe weather in this section, but at this writing it is moderating.

—Our very industrious and efficient county clerk, Mr. Geo. A. Prewitt, completed his tax books and sent them to the auditor Tuesday, the 19th inst. We believe he is always first in finishing that kind of work.

—To those at a distance, who are writing anxious letters about getting a copy of the History of the First Kentucky Cavalry, we would say be patient; it will be a long time before the work is out; there are many difficulties to encounter in getting up authentic matter, but the work is going on all the same and will continue to do so until the end, unless providential hindrances interfere.

—Our representative, Col. Silas Adams, came in Thursday night from Frankfort, having been attacked there with a spell of grip, from which he is still suffering. He intends to return Monday, if his health will admit. Our enterprising merchant, druggist and timber king, W. T. Humphrey, who has been confined to his room for eight or ten days, with the prevailing epidemic, the grip, is on the streets to-day, much improved, but still not entirely recovered. Miss Bertha C. Elliott, W. Clay Adams and young Mr. Combest, all started for the Normal Institute at Lebanon, O., last Sunday. Mart Cowden, from Russellville, and Charlie Sharp, from Guthrie, are now at their old home here. Patrick Napier and Lieut. J. E. Chilton, of Louisville came up last night.

—A man and woman were hung at Danville, Va., Friday for the murder of the woman's husband.

CRAB ORCHARD.

—Mr. D. G. Slaughter announces that he will open his new store Jan. 30.

—Ottenheim is on a boom. Immigrants are arriving almost daily. Mr. J. Ottenheimer knows how to hustle a colony.

—Notices are up announcing the sale of part of the S. A. Middleton farm, to satisfy a mortgage held by W. T. Grant, manager of C. O. Springs.

—Our new board of town trustees have taken charge and posted up very strict rules. Now if they will only enforce them we will have a very civil town in spite of the saloon men. Mr. G. W. DeBorde is chairman.

—Every ice-house is full; even the two large houses Mr. Wm. Stuart had built four years ago, but until this season they have never had a lump of ice in them. Frozen desserts will be the fashion next summer, we predict.

—Tie-loading is in progress at this place, but they are frozen together so tightly that they have to be cut apart with axes, and lumber that has to be loaded on flat cars cannot be loaded at all, on account of the danger from the ice.

—Mrs. D. B. Edmiston has again had to return to Louisville for treatment. She is under that skilled surgeon, Dr. L. S. McMurtry, and we hope will soon be able to return home fully restored. She has our deepest sympathy in her sad affliction.

—Mr. S. P. Moore had a little son, aged three years, to die with something like a spasm. Death is always sad, and especially so when so sudden. Mr. Grand Allen died and was buried with Masonic honors at Old Paint Lick Friday. He was quite an old citizen.

—We know of one young man in town who goes to see his sweetheart every night and writes her every day, but still denies being in love. Men are such frauds; never willing to own up, but fortunately we were not born blind and are a pretty good hand at reading the best of them.

—Mr. E. H. Bryant and mother, of Campbellsville, are here trying to settle the estate of Mrs. Mary Garnett, deceased. One of the relatives, who is not personally connected with the estate, is trying to cause trouble. There is always some busy-body in such affairs, who seems to have no respect for the dead at all when a few dollars are concerned.

—Mrs. J. R. Bailey, Mrs. J. H. Stephens and Dr. W. S. Beazley are slowly recovering from very severe attacks of the grip. Little Gracie Tudor, who was so seriously injured from falling on the ice, is able to be out again. Mr. Alex Beazley make a flying trip to Corbin to prepare for a new drug store, which Mr. Will Beazley and Will Pettus left Monday to open at that place. May success attend them. Mr. Morris Harris and Felix Myers left for St. Louis this week. Parties who went to see Blind Tom from this place were all highly entertained, not only with the music, but also by their kind treatment at the Coffey Hotel, which is daily adding to its popularity as a first-class hotel.

To The Democrats of Lincoln County.

On account of the sad death and affliction with which our family has been recently visited, I have been compelled for nearly two months to suspend my canvass for the sheriffalty. Owing to this circumstance and the further fact that the recent death of my mother has devolved upon me new and unexpected duties which I can not well perform and at the same time continue the race, I have decided to withdraw from it. To those friends who have so generously tendered me their support and so warmly advocated my nomination, I return my most sincere thanks, with the hope that I may at some time be able to requite their great kindness.

R. R. GENTRY.

January 23, 1892.

—W. H. Gadbury has been appointed postmaster at Faulconer, Boyle county.

—The Welsh storeroom corner 3d and Main, Danville, sold to G. E. Wiseman for $11,110.

—In the Florida Senatorial contest the Senate Committee on Elections has decided to report in favor of Senator Call retaining his seat.

The space devoted to the Chicago World's fair is 660 acres. Philadelphia had 236 and Paris 143. The buildings will cover 140 acres and the cost of equipment will be $14,000,000.

—The Senate Committee on Women Suffrage has decided to report favorably the proposed measure for a constitutional amendment giving the right of suffrage to women.

The frog owing to its peculiar construction can't breathe with the mouth open and would die from suffocation if it were kept open forcibly.

—The famine in Russia involves 40,000,000 human beings—nearly two-thirds of the population of the United States.

SEMI-WEEKLY INTERIOR JOURNAL

STANFORD, KY., JANUARY 26, 1892

W. P. WALTON.

BELIEVING in luck and considering capacity for the entertainment of such a crowd of boys in the trenches as will assemble at the next convention to nominate a democratic president, the national committee chose Chicago as the place and June 21 as the day for the next assembling of the unterrified hosts from the Lakes to the Gulf and from Cape Cod to Kalamazoo. Satisfied with her honors of the World's Fair, Chicago was not even a bidder for this honor, but she got there with votes to spare on the 15th ballot, though only one lone delegate voted for her on the first. Next to New York, Chicago is better able than any city in the Union to take care of a crowd and the fact that Cleveland was elected after being nominated there gave the committeemen a leaning and a yearning towards her. It is a notable fact that every nominee for the presidency made at Chicago since the war has been elected, save Blaine and Logan, and "by the eternal" the one that will be nominated this year shall prove no exception to the general rule. We hope and believe that man will be Grover Cleveland, the synonym of all that is honest in party and faithful in government.

COL. POLK JOHNSON throws out this valuable hint to the legislators and others assembled at Frankfort. It is good advice for the capital and everywhere else: "None knows better than one who has lived in Frankfort the difficulty b setting the feet of an official who indulges in a social glass. It is demoralizing to him mentally, morally and finan cially. Finally, we conclude that the young man is safest and happiest who avoids political preferment altogether, even though he work out his destiny in humble station throughout all his days." Yes, drinking and treating usually go hand in hand with office-seeking and office-holding and the first thing a man knows he is in the maelstrom, a mental and physical wreck. Young men and old men, beware of looking on the wine while it is red, for "at last it biteth like a serpent and stingeth like an adder."

THE Columbia Spectator agrees with us about the inequality of the salaries of judges and Commonwealth's attorneys, and adds: "To reduce the salaries of circuit judges and allow that of Commonwealth's attorneys to remain at $2,500 would be a case of saving at the spigot and wasting at the bung." Since writing the article on the subject our attention has been called to the provision of the new constitution as to the office of Commonwealth's attorney, which fortunately limits their pay from the State treasury to not exceeding $500 per annum. In addition the attorneys are to receive a per cent. of the fines and forfeitures and the counties may give them additional compensation if they want to, which they will not.

MR. H. E. WOOLFOLK, who attended the World's Fair Conference at Louisville, gives this good report of the delegates: "At the banquet wine was dispensed with liberality, but was not accepted with the freedom one would expect from an assembly composed of visitors from the country, foot loose and presumably ripe for a frolic or a good time. The writer saw nine delegates at one table, seated in a row directly opposite him, proclaim their belief in total abstinence by turning down their glasses and at other tables a great many pursued the same course."

JOE BRADLEY, the justice of the Supreme Court of the U. S., whose vote in the electoral commission accomplished the steal of the presidency from Samuel J. Tilden, who was elected, and gave it to Rutherford B. Hayes, who was not has gone to give an account for that and other sins done in the body. If forgiveness for the great wrong on the American people is as slow in the next world as it was in this, Aliunde Joe will roast for a few centuries at least in the hottest part of a red-hot hell.

THE Louisville Times changes its presidential preferences with the wind. First it was for Cleveland, then it consented to the nomination of Watterson, after swearing that it would never consent and now it comes out flat-footed for Carlisle. If a man were to change his drinks as often as the Times does its favorite in the presidential derby, he'd get so blind drunk by night he couldn't tell the east end from the west of a horse proceeding towards the occident.

THE last time we saw Managing Editor W. P. Campbell, of the Covington Post, was at the Owensboro Press Association. He was a rosy-cheeked boy then, minus a moustache and with little thought of a wife. Now we observe that he is enjoying the honors of a first born, which he has named Atwood McRae. May the boy live long and grow in grace as rapidly as his father has in the newspaper business.

SENATOR QUAY has gotten another verdict for libel, this time against the Pittsburg Post, but the alleged vindication is only apparent. In both cases the judges have been his henchmen and the juries most outrageously stocked.

BREK. HENDRICK is a hair splitter from the village of that name. He continues to knock great holes in the new constitution against the strict construction of which he has never failed to decide. The sergeant at-arms, door-keeper and other officers of the General Assembly wanted to use the free passes they have, so they asked the attorney general for an opinion on the subject. He very readily comes to the front, saying that these people are not officers in the meaning of the constitution, but common every-day employes of the Legislature. At the rate he is going it won't be long before Mr. Hendrick will give it as his opinion that the INTERIOR JOURNAL and others were right when they said before its adoption that the whole new constitution was a fraud and a failure. The difference between him and us seems to be that he was for the thing before its adoption and against it now; we were against it before and for it now because 138,000 majority, even if a big part of it was negroes, have said in their wisdom that it is the only good and true fundamental law that was ever given to a thankful people.

MR. MILLS' withdrawal from the chairmanship of the committee on Interstate and Foreign Commerce, and his evident intention of acting irrespective of the Speaker, shows that he regards himself of too much importance to be led even by the majority. The Texan seems to have nursed the idea till he actually believes he is the democratic party. We were for him for Speaker simply because he more fully represented the idea of tariff reform than any of the other candidates, but it must be confessed that his skulking and pouting are evidences of a man of smaller calibre than he was supposed to be and there will be less reason to regret his failure of election than if he had stood up like a man and showed no sign of chagrin over his defeat.

THE Chilian affair has assumed a gory aspect. President Harrison has issued an ultimatum, demanding apology and reparation which was expected to be answered yesterday. If it be not complied with, Minister Egan is instructed to sever diplomatic relations with the Chilian government. The Courier-Journal says: A Santiago cable says excitement is increasing and the British Minister to Chili has received instructions from his governmsnt to offer his services as a mediator. A cabinet meeting was held at Washington Sunday. The steamer San Benito has been chartered at San Francisco by the United States and is being loaded with coal and the Philadelphia is said to be on her way to head off the new Chilian war vessel, Capt. Prat.

THE report that a Texas post-master was flying the Confederate flag threw the goody-goody post-master general into conniptions and he ordered an army of inspectors, detectives and what-nots to fly at once to the scene and see if the terrible charge was true. They went in solid phalanx against the offending post-master and found that the "d—n dirty rag of treason," as the head of the G. A. R. beautifully expressed it, nothing more nor less than a display of bunting arranged without knowledge of flags by the ladies, in honor of a local fair. Peace was thereupon declared and Beer. Wanamaker is able again to sleep o' nights.

THERE never was any good reason for auditor's agents and other back tax collectors with large fees and special privileges, and we are glad to see that the revisory commission has recommended a change of the law authorizing their appointment and requiring the work from the regular collection officers charged with the collection of all the taxes. As practiced, the appointment of auditor's agents has only been to give the auditor a still greater leverage for his re-election, while absolutely being a tax on the State.

THE official call for the democratic convention at Chicago invites all democratic and conservative citizens of the United States, irrespective of past political associations and differences, who can unite with us in the effort for pure, economical and constitutional government, to join in sending delegates to the convention. Each State will be entitled to a representation double that in the electoral college.

Two women were legally executed Friday, one in Virginia and the other in North Carolina. Their crimes were heinous and merited the terrible punishment they suffered, but it is more than probable that if their skins had not been black they would not have been hung.

INDIANA republicans seem to be pretty solid for Harrison. The 13 district conventions held a few days ago to select a State committee, each passed resolutions endorsing his administration, while nine declared straight out that he must be renominated.

THE GENERAL ASSEMBLY.

—The Senate again disregarded the new constitution and furnished itself with another messenger.

—The resalution that the constitutional inhibition of railroad passes for legislators, did not apply to this legislature, was tabled by a vote of 65 to 5. Everybody wanted to go on record.

—A bill passed the House, 65 to 3, which provides that no action shall lie for the possession or recovery of any lands in this Commonwealth until the person or persons instituting said action shall have paid taxes on the land for 20 years.

NEWSY NOTES.

—The K., C. G. & L. has taken charge of the Middlesboro Belt railroad.

—Dennis McCarthy, the Louisville wife murderer, was sentenced to death.

—Fifty worshipers were killed or injured Sunday by the roof of a church at Slobodskoi, Russia falling in.

—Burglars secured $140 in money and $714 in stamps, &c., by blowing open the safe of the Emineace post-office.

—At Kansas City, 300 mules and 16 horses were burned in a fire at Sparks Bros.' mule market. Loss about $40,000.

—Senator Gibson, appointed by Gov. Jackson, of Maryland, was almost unanimously elected Senator by the Legislature of that State.

—A fire in the business portion of Pine Bluff, Ark., caused a loss of $250,000. The water supply was poor and the fire had its own way.

—The grip has spread with such rapidity in Paris that all the hospitals are crowded with patients. Barracks in the outskirts of the city are to be turned into infirmaries.

—The Millersburg hoodlums, who threw eggs at Parson Reeves, have been indicted by the Bourbon circuit court and it is hoped that they will suffer the severest penalty.

—Representative Mills has resigned the chairmanship of the Committee on Interstate and Foreign Committee, declaring that he can serve the party better on the floor of the House.

—New York suffered a $500,000 fire. Rheims, the French millinery importer, and several other firms were wiped out and Tiffany, the greatest of jewelers, was only saved by the skin of his teeth.

—The National Surgical Institute at Indianapolis burned and 300 helpless inmates had a narrow escape. Cripples had to leap from third story windows and twenty of the more helpless are said to have lost their lives.

—The strike of the switchmen in the L. St. L. and Texas, in the Louisville yards, was a fizzle. They demanded the discharge of the yard master, but after staying out a few days they asked to be reinstated and all were but two.

—The Boone Paper Co., successors to Moore & Stark, Louisville, which was recently burned out, has decided not to resume a business, which has proved so unprofitable. The creditors will be paid in full, but the stockholders will get less than 75c on the dollar.

MATRIMONIAL MATTERS.

—Rev. W. G. McCready, of the Episcopal church, and Miss Margaret, daughter of Judge French, of Winchester, will be married Feb. 9th by Bishop Dudley.

—Miss Bertie Hicks, the bright and accomplished daughter of Judge Sim Hicks, of Somerset, will be married Feb. 1st to Dr. Henry Fitzpatrick, formerly of Somerset, but now a prominent physician in California.

—An unusual suit is being tried in Somerset before Judge Morrow. John C. Pritchard, a railroad engineer, wanted Miss Ella Harrison to return the diamond rings and other valuables that he gave her when she promised to be his wife. Recently Miss Ella has given him the cold shoulder to such a degree as to freeze him out entirely. He asked the return of his presents, but "she said him nay," and the suit resulted. The world will have its opinion of a woman who would keep such gifts and of the man who would go to such an extremity to get them.

—Franklin county, Va., furnishes an exception to the rule that love laughs at locksmiths. The old folks objected to the girl's marriage and instead of flying to some Gretna Green, she tied a rope around her lily white neck and with the other around a limb of a tree, "launched herself into eternity." On hearing this awful news the man took a cup of cold poison and he too went hence. Poor fools! But perhaps it is better thus. They were too tender and senseless for the batties of this cruel world.

DEATH'S DOINGS.

—Mrs. Agnes Goff, daughter of Anderson Chenault, who had been a wife but a year, and Napoleon B. Terrill, aged 80, died of the grip in Madison county. Mr. Terrill leaves an estate of $100,000.

—Mrs. Elmira Goodloe, the last of the five children of the late Gov. Owsley, died at Richmond, Saturday. She was born near Lancaster in 1808 and married Judge Wm. C. Goodloe, of Fayette, in 1826. Among her seven surviving children are Mrs. R. H. Johnson and Mrs. John J. Craig, of Danville, and Rev. W. O. Goodloe, pastor of the Second Presbyterian church, Harrodsburg.

—HUGHES.—Mr. Zachariah Hughes, one of the oldest men in the county having long passed four-score and ten, died Sunday night of a general giving away of the vital forces. A member of the Christian church from boyhood, he had filled the office of elder for 50 years, or more, and was in every sense an excellent gentleman and a true christian, in addition to being one of the best of democrats. For several years he has read the Bible almost constantly and nearly knew the sacred word by heart. He raised a large family of children, eight of whom are living, and honorable exemplars of their early teachings. The remains will be interred at McCormack, the church he loved so well, at 10 o'clock this morning, after a service by Eld. W. L. Williams.

THE Record's "old reliable," Capt. F. J. White, celebrates his 72d birthday, to-morrow (Saturday). There never was but one man in the United States that could "set 'em up" faster than he, and like the man who hit Billy Patterson, he always "took beer." A fair estimate of the work he has done in his long and useful career as a typo places the number of letters he has handled at 72,000,000—one million each year, except when Cleveland was elected, when he most likely "set up" " 'bout 85."—Central Record.

LANCASTER.—About 50 cattle on the market yesterday, but only about half sold. Those disposed of were mountain cattle and brought from 1¾ to 2¼c. Plug horses sold at $41 to $60; work mules $128 and mule colts $66 to $80. Business rather dull.

" J. D. JONES, "
84-2m O. V. RILEY, Pineville.

H. T. BUSH,

REAL ESTATE AGENT,

Stanford, Ky.

I have quite a number of FARMS for sale of the very best Blue-Grass Lands in Lincoln county. These Farms are all well improved and good rich lands, running in size from 50 to 500 Acres. Considering their locality, their richness and fertility of soil, the convenience of turnpikes and railroads that bring markets right to our door, they are cheaper than the Lands of any other county in the State. There is scarcely a Farm in the county over 5 miles from a depot.

The county is checked with turnpikes running in every direction. There is not a public road entering the county seat that is not Macadamized. We have the Knoxville Branch of the L. & N. R. R. dividing the county from East to West, and the C. S. R. R. from North to South; the K. C. R. R. from this place to Cincinnati, crossing the C. & O. at Winchester, giving full access to the markets of the whole world. Besides, we have three large Flour Mills in the county that give us a market for all our grain right at home, and the development of the mountain regions of Eastern and South-eastern Kentucky by railroads and the outlet South by railroads has created such a demand for all kinds of cereals and provender that we can scarcely retain enough for home consumption.

The people are prosperous, generous and kind, believing in Christianity and education. There is not a neighborhood in the county but has a good church and school-house.

Stanford, the county seat of Lincoln, is a prosperous little city of about 2,500 inhabitants and is the great doorway from the North and Northeast South and from the Northwest to Southeast, and standing as it does gazing right into the bosom of the undeveloped mountains of Southeastern Kentucky backed up by the whole Blue-Grass region of the State with railroads running through it to all points of the compass, makes it naturally one of the best located towns in the South for manufactures and other enterprises of magnitude. Water Works are now being agitated and right about the town about three-fourths of a mile there could be erected Water Works with very little cost that would supply a city of 150,000 inhabitants with the purest and best water in the world. Our little city has been newly rebuilt in the last few years and its business houses and residences will compare with larger cities of greater pretensions. Our merchants and tradesmen are all prosperous and doing well. We have two banks with a capital stock of $600,000 that are prosperous and in a good condition.

We have splendid schools. We have a Female College, a large brick building, with over 100 pupils in attendance and under the principalship of Prof. J. M. Hubbard, is in a flourishing condition. We also have a Seminary that is a good school, with Prof. B. F. Blakeman at its head. We have one of the best Public School buildings in this section of the State, with over 200 pupils in attendance, and with other good private schools, you see our school facilities are excellent.

We have elegant church buildings, representing every denomination, with a full corps of ministers of first-class talent and are doing a better business than any class of men in the city.

I have tried to make this statement as facts, without any exaggeration or coloring, as those who know will bear me out, and those who wish to buy pleasant homes at fair prices and locate among a good people with all the best surroundings, would do well to call and see me before purchasing elsewhere.

THE Somerset Reporter says that Col. W. W. Penn, T. P. A. of the Ellen N., sold $700 worth of tickets to two families moving from Pulaski to Montana.

BORN to the wife of Mr. S. L. Withers a 11-pound boy. He has been christened Walker McKinney, in honor of the prominent young groceryman of this place.

DAN MILLER has resigned the office of constable and this magisterial district is without one. Judge Varnon asks us to state that if there is a good democrat hereabouts who wants the office to call and make his wishes known.

THE court of levy of Boyle has fixed the property tax at 17½ cent and the poll tax at $1.50. This is an increase of 2½ cents per $100 on property and 50 cents decrease on the poll, the constitution providing that this tax shall not exceed $1.50.

THE capital stock of the Pitman Coal Company was increased to $100,000 to pay for large additional purchases of Laurel county and other lands. Following are the officers elected for the year: President, W. A. Pugh; vice president, Thos. McRoberts; secretary, J. M. Bailey; treasurer and general manager, S. V. Rowland.

MACK FERRELL says that our charge that whisky played a big part in his trouble with Bob Whitley does him an injustice. He claims that he had not tasted liquor and that he did not harm the negro till he had applied a vile epithet to him. Whitley was unable to appear Friday and the trial was continued till to-day at 10 o'clock.

A RELIC.—Mrs. America Bailey, of Hustonville, who has reached the advanced age of nearly 90, has in her possession a counterpane nearly 150 years old. It is still in a good state of preservation and has been used nearly every year since it was made. The counterpane shows excellent workmanship and is very highly prized by the owner.

THE MODEL MINSTRELS.—It will be hardly necessary to tell the town people that Sweeney, Alvido, Gorman & Goetz's Model Minstrels will be at Walton's Opera House on the night of Feb. 1. Messrs. D. L. Scott and Clarence Terrill, the advance couriers, were here yesterday and the whole town is painted red, white and blue.

As will be seen in another column R. R. Gentry, for reasons which he states, has withdrawn from the race for sheriff. During his candidacy he made hosts of friends, who will regret his determination and hold themselves ready to honor the excellent young democrat at any time he may call on them. This leaves only one candidate, J. N. Menefee, for the office and one for circuit clerk, J. P. Bailey. The committee will therefore doubtless give fair warning to all who may desire to become candidates and should no others enter the field, recall the order for a primary election and declare Messrs. Menefee and Bailey the democratic candidates for the respective offices.

THE Advocate says that the Boyle county court has instructed County Attorny Robert Harding to procure an act to enable the county to sell its present poor-house farm and issue bonds for the purchase of one that will be a least self-sustaining, if not of actual profit to the county. The present affair is a disgrace to the county and the Advocate calls loudly for a reformation. This reminds us that while it is kept in a decent and commendable manner, by a most excellent and estimable lady, Lincoln's poor-house, as situated, proves a great tax upon the people of the county. It is away off in one end of the county, the land is poor and it costs nearly $2,000 a year, whereas if it was better located and had a fertile farm attached, it could be made to at least save the heavy tax. A committee has been appointed to consider the advisability of selling the old and buying a new farm and it is hoped that its report will be in favor of it, and that the court of levy, which meets in March, will adopt it. We already have an enably act to do what is considered best in the premises.

DON'T forget we have received our new spring stock of white goods, laces, kid gloves, &c. J. S. Hughes.

LEAVE your accounts, notes, etc., in the hands of George B. Wearen at J. B. Paxton's office for collection.

J. S. HUGHES has just opened a lot of fancy dress goods which he will sell at prices that can not be duplicated elsewhere.

FOR RENT.—House with five rooms and garden. Situated on Logans Creek, 1¼ miles from Rowland. Apply to A. T. Nunnelley or T. L. Shelton.

CHARLES FORD, a brakeman, fell from his train while coming down Crooked Hill, on Friday morning, and sustained severe injuries about the head and back.

EIGHT shares of stock in the Farmers Bank and Trust Co., of Stanford, sold at Mr. Aren Anderson's sale 5 to J. M. Hail at $120.25 and three to Silas Anderson at $120,75.

ALEX GOOCH was tried before Judge Varnon yesterday for using abusive language to Wm. Huston, who shot at him for it, and was acquitted. Huston waived examination and was held to the circuit court in $50 bail, which he gave. They live near Turnersville.

NEAR Danville Sunday morning a Cincinnati Southern train was run into by a freight. Two sleepers, the freight engine and several freight cars were wrecked and three trainmen were injured, one, John McCabe, of Somerset, perhaps fatally. No passengers were hurt.

THE total increase of taxable property by the supervisors, we learn from John Bright, clerk, was $51,621, divided as follows: Stanford precincts, $28,064; Walnut Flat $5,291; Crab Orchard, $6,720; Waynesburg $400; Hustonville $8,831; Turnersville $2,315 and Highland nothing. The supervisors were in session nine days at an expense of $10 a day, so it will be seen that they paid for themselves 5 times over.

IN a collision at Somerset, Thursday, Mr. Robert S. Lytle, of this place, was pretty badly used up. His train was pulling out of a switch to the north, when another train, also bound north, and going at about 20 miles an hour, struck it, turning cars over to the right and left. Mr. Lytle jumped with many other passengers when he saw the danger and had his knee hurt, his foot sprained, both hands badly torn, besides being otherwise bruised. He was brought home and is now able to hobble about on crutches.

SOMETHING GRAND COMING to STANFORD.—The managers of Walton's Opera House have secured under special contract the famous Sweeney, Alvido, Gorman & Goetze Model Minstrels to give one performance on next Monday night, Feb. 1. This company comprises 30 star artists, no more or no less, and having a few dates to fill in before playing Harris' Theatre, Louisville, enables them to offer to the people of Stanford, the foremost and most refined minstrel show now traveling. They have a full orchestra of nine, 18 pieces in the band and a host of new novelties. Secure your seat early at the usual place, as there will be no advance in prices, giving all a chance to see an extra fine show. 2t

LUTHER BENSON.—All of our people recollect Luther Benson, the imported temperance orator, who spoke night and day here just before the last prohibition election. He could rattle off more of that class of oratory in a minute than most men can in five, and prided himself that he was as a brand snatched from the burning. In fact he was, according to his own confession, just back from a 15 years' tour of hell, determined to fight shy of that awful place hereafter and plead to others to do so. But talk is cheap and professions are easily made. Benson has been on an awful tear, in fact he has been on many since he strutted his brief term on the stage here, and the last was so violent that he had to be restrained. His friends decided to take him to the Keeley cure and he is now undergoing the bichloride of gold treatment. This class of orators and preachers, who seem to pride themselves on the fact that they have gone all the gaits, makes us very tired. We much prefer to listen to men who have had the stamina to shun the rocks, upon which so many human crafts have split, and have little or no confidence in those who preach what they do not even try to practice. The words of one good man, who has never gone astray, is worth a thousand from those who out of pure cussedness have sunk their own souls well nigh into perdition. We were very much impressed recently by a sermon preached in his church in Atlanta by Dr. Hawthorne, the distinguished divine, on John the Baptist. Speaking of the age when this man, of whom God said there had not risen a greater born of woman, he said: "First a man and then a preacher," and took occasion to score the ecclesiastic and other deadbeats and tramps, who go around the country bragging of what terrible fellows they have been, in a manner which showed that he knew what he was talking about. "First a man and then a preacher." He is not a man who fails to govern his own appetites and passions, and is not worthy to give advice to others.

J. D. SWAIN, who used to live here, has presented Editor Rucker, of Somerset, with a wash pan and the gift and the giver are duly extolled. The question naturally arises, "Did Mr. Swain regard Mr. Rucker as one of the great unwashed and give him what he thought he was most in need of?"

CHURCH AFFAIRS.

—Elder R. D. Harding, of Fredericks Hall, Va., has taken charge of the Somerset Christian church, we learn from the Reporter.

—The Williamsburg Herald says a Baptist revival at Paint Creek church, held by Revs. Cornelius, Owens and others, had had 27 additions to last reports.

—Poor little infants! We are so glad that the Presbyterian revisory committee has decided that they shall not be damned when they die before they know what it is all about. The little things too are cooing their thanks all over the land.

—Rev. C. H. Woolston, a Baptist pastor of Philadelphia, believes in brass band music for churches. He says it brings the world into the church. The secret of the success of the theatres is that they have good music. In the crowded concert gardens bands play beautiful music, while the almost deserted churches too often depend upon the cracked and harsh tones of the wheezy asthmatic organ. Rev. Woolston does not think it right that the devil should have the monopoly of all the good music.

—The union revival continues at the Presbyterian church, but will likely go to the Christian church to-day. Rev. W. E. Ellis and his members having requested that their church be used. The Baptists voted Saturday not to throw open their doors to it. There have been no professions since last report, though several have requested prayers for their salvation. While not fruitful in additions, the meetings have done great good to the professed followers of the meek and lowly Jesus, and a much better feeling of brotherly love exists than before they began. Services will be held twice a day till further notice.

FIRST NATIONAL BANK

OF STANFORD, KY

Capital Stock.....$200,000
Surplus 18,500

Attention of the public is invited to the fac that this is the only National Bank in Stanford. Under the provisions of the National Bank Act, depositors are secured not only by the capital stock, but by the stockholders' liability for an amount equal to the stock, so that depositors of this institution are secured by a fund of $400,000. Five sworn statements of the condition of the bank are made each year to the United States government and its assets are examined at stated times by government agents, thus securing additional and perfect safety to depositors.

This institution, originally established as the Deposit Bank of Stanford in 1858, then re-organized as the National Bank of Stanford in 1865 and again re-organized as the First National Bank of Stanford in 1882, has had practically an uninterrupted existence of 32 years. It is better supplied now with facilities for transacting business promptly and liberally than ever before in its long and honorable career. Accounts of corporations, fiduciaries, firms and individuals respectfully solicited.

The Directory of this Bank is composed of

LANCASTER, GARRARD COUNTY.

—Seven wagon loads of corn were brought into town Sunday morning and placed on cars for shipment.

—The report that J. Mort Rothwell was married turned out to be untrue. He merely sent the telegram to have a little fun.

—Prof. Koester's music class will give another one of their delightful recitals at the College chapel this, Monday evening.

—If the real merits of many of our so-called statesmen were in proportion to their ambition, the number of genuine statesmen would be materially increased.

—A recent letter from Mr. E. W. Morrow, who was called to Selma, Ala., by a telegram announcing the death of his mother, says that his father is rapidly sinking. Everybody in Lancaster is Ed's friend and they deeply sympathize with him in his sad bereavement.

—Why not fill the army destined for Chili with the professional politicians who have proclaimed from a thousand stumps their patriotism and desire to serve their country at five thousand a year, or even less rates in cases of emergency and if necessary to shed the last drop of blood in its defence?

—The young ladies of Lancaster will give a leap year party on the evening of February 4th. The invitations read thus:

"Forty old maids, some younger, some older,
Each lugged an old bachelor home on her shoulder."

Hotel de Holmes, 7:75, Feb. 4, 1892.

A full report will appear in this column of the I. J.

—The New York Press is clamorous for war with Chili. The Press, like the fable of the wolf and the lamb, is determined that Chili has muddied the stream whether above or below the United States. It has been asked by a correspondent why the two countries could not sit down like two well bred gentlemen and discuss and reconcile their differences without a resort to bloodshed? The substance of the only reply it has been able to give to this pertinent question is that Chili is no gentleman.

—It does not follow that the American citizens who deprecate war and are loth to pounce down upon a diminutive republic in a matter of very questionable propriety are necessarily cowards. Experience has shown and especially in the late war that those on both sides who were the most loud mouthed in advocacy of war, and who were unwilling to listen to reason, were never known to have exposed their precious persons upon a battle field, but on the contrary, after having precipitated hostilities, remained at home in security, leaving those who were peacably inclined to do the fighting.

—Ira Taylor, of Cincinnati, is in town. Mr. R. L. Elkin and wife, of Louisville, are visiting relatives in Lancaster. Mr. Elkin says that Will Collier, of Surveyor Collier's office, has about recovered from a severe attack of pneumonia. Miss Addie Burnside has returned from school at Oxford, O. She will shortly leave for Cincinnati, where she will take a thorough course at the Conservatory of Music. Miss Georgie Moore, of lower Garrard, was in town Saturday. We are exceedingly glad to state that R. Graham Frank is rapidly recovering from an at tack of pneumonia. Miss Hallie Rice, of Marksbury, is visiting Mrs. A. H. Rice. R. G. Dunn, of Danville, was here Sunday.

—Being unable to capture Catario Garza, the Mexican revolutionist, the U. S. troops have done the next best thing they could by capturing Frank Garza, his brother. This will doubtless be followed by the capture of the rest of his family, uncles, aunts, cousins, nieces, nephews, grand-mother and grand father, and while Catario will be vamosing around in the chaparral in search of mucal and tortillos, the regulars of the United States and Mexico can content themselves with sending dispatches that they are "hot on his trail" and his family are prisoners of war. The report from San Antonio, Texas, on the 21st inst., is that the whole of the Rio Grande frontier is covered with snow and that the several commands of the U. S. Cavalry in the field are without tents and are suffering intensely from cold.

—Gen. Datus F. Coon, of San Diego, Cal., has opened an office and commenced recruiting a brigade for the war with Chili. It has been ascertained that Gen. Coon served in the 2d Iowa Cavalry during the late war, though what extraordinary deeds of daring he performed have not been conspicuously recorded in history. It is known that coons have an especial fondness for chickens and the probabilities are that many a Confederate hen roost suffered when Gen. Coon was encamped in their immediate locality. But what is the use of Gen. Coon going to all this trouble when Gen. Eddison, of phonograph and electric light fame, has discovered a scheme by which the armies of Chili are to be squelched without firing a gun or the loss of a man. He has demonstrated that a stream of electricity charged with water can be made very fatal and proposes to construct a fort, which he will man with not more than 25 men. He will put in this an electrical machine of 20,000 volts energy, one wire from which would be grounded and the other connected with a pipe capable of throwing water under a pressure of 400 pounds to the square inch. When an enemy approaches, the men in the fort will simply turn the water on them and every man touched will drop dead. If they want to be more merciful, they will only apply enough electricity to stun their enemies into insensibility and then take the whole lot prisoners. This would be entirely practicable if Gen. Edison could first get permission of the Chilians to land and build his fort; but without standing room for his fortification it is difficult to see what headway he could make unless he could get near enough to shore with his batteries to operate his machine on board a ship of war, and as the man of war would be likely to have all the fighting it could do to enable it to keep afloat, the electrical water machine would stand a first rate chance of being knocked out of water before it had accomplished anything worthy of mention. Now if Gen. Edison had been in Chili with his invention at the time the 38 American sailors were carousing and turned his water battery loose upon those warlike sailors, he would have saved the people of this country a vast amount of unnecessary bluster and brag.

FARM AND TRADE ITEMS.

—During last year 23 horses earned records of 1:41 and better.

—Josh Adams bought of H. J. Darst 20 head of 1,000 pound feeders at 3¼.

—John Murphy sold to Higgins, of Boyle, three two-year old mules at $120.

—J. W. Powell, of the West End, sold Johnson, of Boyle, 83 year-old cattle at 2¼c.

—John Williams, of Casey, bought in Russell county 23 head of 2-year-old feeders at 2c.

—B. G. Gover sold to R. C. Nunnelley 6 head of 3-year-old cattle, about 900 lbs., at $30.

—Dr. J. T. Bohon has four or five two-year old mules ready for market that he is anxious to sell.

—Several Pulaski traders have shipped back mules from the South rather than take the low prices offered.

—J. Farther Neal and Miss Mattie, sister of Hon. D. G. Colson, all of Middlesboro, are to become one to-morrow.

—FOR SALE.—50 select ewes, strictly No. 1, due to lamb in a few days by pure Southdown bucks. Time to suit purchaser. S. J. Embry.

—The Anderson News says that Mrs. Alexander sold 30 turkeys for $40. They averaged 19 pounds and sold at 7c. A yearling gobler netted 30 pounds and brought 10c a pound.

—D. S. Carpenter has rented the Fair grounds for the year 1892. He has had a good business during the past year and has given satisfaction in his stock training. He has some good stock in his stables.—Somerset Republican.

—The sale of Arch Anderson's personalty Friday was largely attended and things sold away out of sight. Yearling cattle brought $18, 2-year-olds $22.50, 3-year-olds $30, cows $25 to $30, horses $20 to $75, hogs 3½, corn in crib $1.00 to $1.-85; hay about $8 a ton; ewes with lamb $4.85 and farming utensils higher than the new ones could be bought for.

Young Men's Christian Associations.

The 11th annual State convention of the Young Men's Christian Associations of Kentucky will convene at Danville, Feb 18 to 21. This convention is being looked forward to with great interest by the christian young men of the State.

The opening address will be delivered by Rev. E. E. Hoss, D. D., editor of the Christian Advocate, Nashville, Tenn. Besides many workers from our own State, Rev. R. J. McBryde, D. D., Lexington, Va.; Mr. W. K. Jennings, Pittsburg, Pa; Mr. C. K. Ober, Southern secretary of the International Committee; Mr. F. S. Brockman, College secretary of the International Committee; Mr. S. D. Gordon, State secretary, Ohio, and Mr. and Mr. F. S. Goodman, general secretary, Cleveland, O., Association, have promised to be present and assist.

A large number of delegates are expected. The attendance last year at Lexington was 266. Reduced rates on all the railroads and entertainment will be provided. All christian young men expecting to attend should write at once for programme and full particulars to Henry E. Rosevear, State secretary, 431 W. Walnut street, Louisville.

IT DOESN'T SUIT ANYBODY.—The revisory committee makes up two judicial districts as follows: Madison, Rockcastle, Jackson, Owsley and Estill constitute the 17th; Lincoln, Mercer, Boyle, Garrard and Casay the 14th. The INTERIOR JOURNAL remarks: "We have no special objection to Mercer, but we would suggest Rockcastle in the place of Mercer, because we are more intimately connected and associated with her." For which suggestion the Signal, in the name of every citizen of Rockcastle from the blue-grass to the River, thanks the I. J. If the committee had studied the question for a lifetime it is doubtful if it could have arranged a district more inconvenient for Madison and Rockcastle. It goes without hearing from Madison that if will object. As for Rockcastle we cannot conceive of a more inconvenient arrangement.—Mt. Vernon Signal.

Safe and Reliable.

"In buying a cough medicine for children," says H. A. Walker, a prominent druggist of Ogden, Utah, "never be afraid to buy Chamberlain's Cough Remedy. There is no danger from it and relief is always sure to follow. I particularly recommend Chamberlain's because I have found it to be safe and reliable." 25c and 50c bottles for sale by Dr. M. L. AN INTRODUCTION

To the through car service of the Wisconsin Central Lines and Northern Pacific Railroad is unnecessary. Its advantages and conveniences have been fully established. It is the only route to the Pacific Coast over which both Pullman Vestibuled first-class and Pullman Tourist Cars are operated from Chicago via St. Paul without change. Through train leaves Chicago every day at 10:45 p. m. The traveler via this route passes through the most picturesque, interesting and prosperous belt of country in the Western World. There is a scenery with most striking contrasts that range from the rolling prairie and the pine forest level to the wildest passes of the wildest mountains in the world.

There is a series of the noblest cities, towns and villages of every variety and size, from the hamlet or the tiny farm, upward; the richest mines in the world; the greenest and most lasting pasturage; the wildest scenery on the Continent; canons as weird as a nightmare; hills, snows and peaks startling in the magnificence of their beauty and a perfection of comfort in traveling that has never been surpassed.

Fast train via the Wisconsin Central Lines for St. Paul, Minneapolis, Ashland and Duluth leaves Chicago at 5:00 p. m. daily with Pullman Vestibuled Sleepers and the Central's famous dining cars attached.

A Wonder Worker.

Mr. Frank Huffman, a young man of Burlington, C., states that he had been under the care of two prominent physicians and used their treatment until he was not able to get around. They pronounced his case to be Consumption and incurable. He was persuaded to try Dr. King's New Discovery for Consumption, Coughs and Colds and at that time was not able to walk across the street without resting. He found before he had used half of a dollar bottle that he was much better; he continued to use it and is to-day enjoying good health. If you have any throat, lung or chest trouble try it. Trial bottle free at A. R. Penny's drug store.

La Grippe.

No healthy person need fear any dangerous consequences from an attack of la grippe if properly treated. It is much the same as a severe cold and requires precisely the same treatment. Remain quietly at home and take Chamberlain's Cough Remedy as directed for a severe cold and a prompt and complete recovery is sure to follow. This remedy also counteracts any tendency of la grippe to result in pneumonia. Among the many thousands who have used it during the epidemics of the past two years, we have yet to learn of a single case that has not recovered or that has resulted in pneumonia. 25c and 50c bottles for sale Dr. M. L. Fourne, Druggist and Optician, Stanford, Ky.

Beginning with the New Year, it is customary to form new resolutions and as far as possible profit by experience of the past. The general credit system having been universally condemned by both debtor and creditor as a curse to our country, one of our young grocery merchants has concluded that it will be wise and profitable to both himself and his customers to steer clear of this reef that has made shipwreck of so many in the past and at the same time offer such inducements to his customers that they can not afford to buy their Groceries elsewhere. For example he will sell you
